The Visiting Scholar program is a 1-year **independent-study post graduate** curriculum utilizing Simtiki resources, faculty, education programs, and research projects. Visiting scholars are incorporated in all of our activities as a full member of our department. We hope to find the best match for your interests and time. Participants receive an official appointment at the University of Hawaii John A. Burns School of Medicine as a Visiting Scholar and a Visiting Scholar Certificate upon completion of the program. Scholars are encouraged to complete a research or curriculum project.

Core Curriculum

Participants will gain practical experience and skill through observation and teaching in the following areas of simulation based healthcare education

- I. Instructional design and curriculum development
 - II. Multiple simulation based instructional methods
 - III. Educational research
 - IV. Simulation center program development and operations
- Healthcare educators who are interested in
Simulation-based education techniques

Fellowship Topics:

Debriefing, Facilitation, Learner and Program Assessment, Video Debriefing, Alpha and Beta Testing, Adult Learning Concepts, Instructional Design, Scenario Development, Task Training Design, High Stakes Testing- Reliability and Validity, Simulation Program Management, Simulation Specialist Roles and Training, In-Situ/Just in Time Training, CHSE/CHSOS criteria

Activities:

Fundamental Simulation Instructional Methods, Journal Club, Simulation Resource Portfolio, SimBites Faculty Development Luncheon, Individual Curriculum Project, Simulator Programming, SimTiki Academy Colloquium, Research Conference, Education Methods Research Projects

Prerequisites:

- | | |
|-------------------|--|
| English Language: | Adequate for professional interactions |
| Experience: | Simulation educator course completion or, Simulation based teaching experience or, Healthcare education experience |
| Interview: | Web based/remote, or in person |
